<p>Course Loads: Rigorous course loads (15+ credits) including 2 or more science courses per semester is recommended for most professions. Everyone has a different path. Your tracking, major, and college requirements take priority, so your plan may look different than your peers.</p> <p>*It is not recommended to use your summers to "knock out" or "spread out" your science courses.</p>		<p>Other courses may be required by specific programs. You are responsible for knowing the requirements of the schools where you plan to apply.</p> <p>Many professional schools do not accept pre-requisite courses taken on-line or at non-U.S. institutions. It is up to you to double-check whether courses taken on-line will be accepted.</p> <p>Policies on AP, IB, AICE, and community college credit vary by school. Be sure to check each school's policy.</p>
